WHAT IS A BUSINESS EXCHANGE?

Think of it like “speed dating” for Property Management Companies and the Supplier Partners that service them. Decision makers from property management companies will be at the tables, and the Supplier Partner representatives will rotate around the tables during scheduled 4 minute appointment times.

The Business Exchange is a great way for you to meet and gather information from a wide assortment of vendors in an efficient and organized manor. You will leave this event with key information that you can use to make well-informed decisions as you prepare your 2020 budgets.
