

MAINTENANCE MANIA!®

2019-2020 Maintenance Mania Season

New Queenaire® Shock Treatment Setup Game Supplemental Training Resource

For the 2019-2020 Maintenance Mania season, the Queenaire® Shock Treatment Setup will be a new game added to the competition. Please read the official Maintenance Mania rulebook thoroughly for all competition instructions, the following document is only to serve as a supplemental resource for the new game.

Image of Game Display:

Competition Instructions:

1. Participant rolls a die to select which of the scenarios s/he will solve during the game.
2. After rolling the dice, participants may flip the scenario cards to their selected scenario. Do not attempt to solve the scenario at this time. Move on to the next step.
3. Stand at the end of the table with both hands placed on the timer until the light turns green.
4. Timer begins after participant removes both hands off the timer.

5. Place the Newaire Plug-In, Door Hanger, scenario card ring and calculator in tote.

6. Move to the right side of the table to the work area.

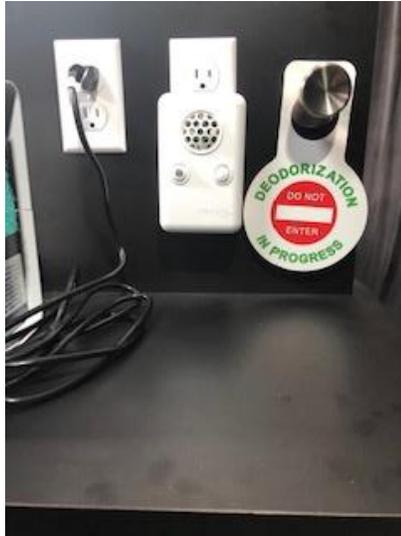

7. Competitor completes the following:

- Using the selected scenario card with formula and the calculator, solve for the correct Ozone Knob setting.
- Turn the Ozone Knob on the Queenaire Tornado to the correct setting as determined by solving for the selected scenario.

- Set the Timer Knob on the Queenarie Tornado as outlined on the selected scenario card.
- Plug the Queenarie Tornado into the outlet on the left (nearest the Queenaire Tornado unit).
- Plug the Newaire Plug-In unit into the outlet on the right.

- Hang the door hanger on the door knob.

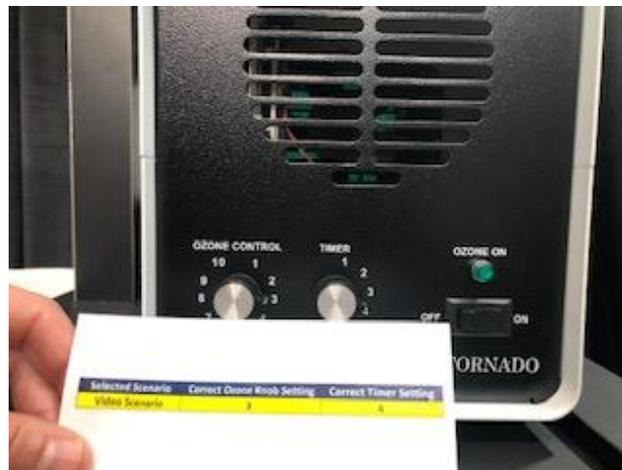

8. Place the scenario cards and calculator in the tote and return the tote to the starting position past the checkered line on the table.

9. Place both hands on the timer to stop the time

Judge Inspection:

The judge will review the following requirements to certify the game was completed successfully:

- The Ozone Knob and Timer Knob on the Queenaire Tornado are set to the correct settings for the selected scenario

- The Queenaire Tornado unit is plugged into the outlet on the left and the unit's power switch is in the **On** position.
- The Newaire Plug-In unit is plugged into the unit on the right.
- The door hanger is hung on the door knob.

- The tote with the calculator and scenario cards is returned to the starting area beyond the checkered line of the table.

A callback will be applied if any of the above requirements are not completed on the first pass.

Judge Reset Notes

When resetting the game for the next competitor, set both the Timer and Ozone Control Knobs to "1".
